

Coolaroo Exterior Roll Up Window Shades Installation Instructions

Whilst Coolaroo Exterior Window Shades are designed primarily for use on exterior windows, they are equally at home as Drop Shades on pergolas, patios, verandahs etc. Your Coolaroo Exterior Window Shade - Roll Up comes complete with fixing accessories including fixing screws to secure the

headrail, a corrosion resistant rope cleat with fixing screws and two base rail snap-in anchor plates with fixing screws. The only tools you will require for quick and easy installation are a 1/8" drill bit, a Phillips Head screwdriver and a pencil or felt tip marker.

STEP 1

Once you have selected the spot for your Exterior Window Shade keep it in the rolled up position and hold the aluminium headrail in place where you would like it installed.

STEP 2

Mark the spots where you intend drilling holes for the fixing screws. Check the base material behind the headrail to ensure that it will accept the self-tapping screws.

STEP 3

Remove the Exterior Window Shade and using the 1/8" drill bit, drill holes in the base material where marked.

STEP 4

Reposition the Exterior Window Shade and using the Phillips Head screwdriver, fix the self-tapping screws to secure the Exterior Window Shade.

STEP 5

Release the Exterior Window Shade Fabric to fall full length. To install base anchor plates, apply light tension to the Exterior Window Shade, snap the anchor plates onto each end of the base rail and mark where the anchor plates are to be fixed with the screws provided.

STEP 6

Using the 1/8" drill bit, drill into the base material and fix the anchor plates into place using the screws provided.

STEP 7

Lock the base rail into the anchor plates and secure the Exterior Window Shade in the fully drawn (down) position.

STEP 8

To attach the rope cleat, hold the cleat in position, mark holes, drill then screw the rope cleat into place using the screws provided. The cleat should be positioned so that the pull cord will be out of reach of young children. Pull the cord taut and wind it tightly around the cleat to hold the Window Shade in place.
